

Chemistry Manager Training

Tetra Tech, in partnership with Hewlett Packard Enterprise (HPE), has now updated the training schedule to include ½ day training sessions for Chemistry Manager. Tetra Tech continues to use a highly successful, hands-on approach with industry specific examples and exercises to effectively demonstrate the nuances associated with the system. This class will cover the requirements for suppliers to report REACH Annex XIV Regulatory information as well as Biocidal Products Regulation (BPR).

Highlights of Training Sessions

- Introduction to Chemistry Manager and its purpose
- Assigning Regulation Wizard user functionality
- Hands-on training exercises utilizing the new Regulation Wizard :
 - Enter, Edit & Release regulatory information
 - Show the impact on Published (Standard) MDSs (special cases / exclusions)
 - Recognize regulatory information within the part tree
 - Request / receive regulatory information
 - Set up, receive, and interpret e-mail notifications
