

6127 IMDS Basics Course (Webinar)

Objective

You are familiar with the practical application of IMDS in order to work independently on material data sheets (MDS). You know how to avoid formal rejections by researching and applying OEM acceptance criteria. You are familiar with the definitions and use of the IMDS and can use all its basic functions. You can create, send and manage MDS and you can create structure trees. You know how to search for good quality data sheets and how to integrate them into your structure tree. You are familiar with the IMDS change management specifications and can implement them safely using the update function. You can perform simple administrative tasks in IMDS, are familiar with the updates in IMDS with regard to GDPR and can ensure compliance with GDPR in IMDS. You understand the enhancements introduced by IMDS Release 12.0.
