

6172 IMDS – Requirements and Guidelines

Goal

Due to amendments to the regulatory IMDS framework, requirements for legal compliance are increasing. After completing this training you will know the requirements and how to integrate them into your day-to-day work. In particular, you know the regulatory IMDS framework “General Structure” and corresponding rules and guidelines that are important for an accurate creation of MDS (Material Data Sheets). You know how to interpret the guidelines and apply them efficiently in your IMDS process. That way, you avoid additional expenditure for revisions. You ensure professional customer-supplier relations and MDS rejections are prevented.

Content

- Relevant legal requirements
 - End of Life Vehicle Directive 2000/53/EC, including annex II
 - REACH Regulation 1907/2006
 - Conflict minerals according to EU regulation 2017/821 and Dodd-Frank Act
 - Biocide regulation EU 528/2012
- Application codes in IMDS
 - Application-relevant basic substances in IMDS
 - Preselection of application codes in IMDS
 - Verifying and setting the correct application code
- Recommendation “General Structure” at a glance
 - Compliance with the supplier chain in IMDS
 - Compliance with change management rules
 - Definition, Rules & Guidelines of “component”
 - Definition, Rules & Guidelines of “semi component”
 - Definition, Rules & Guidelines of “material”
 - Definition, Rules & Guidelines of “basic substance”
 - Basic substances list (BSL), GADSL and SVHC in IMDS
- Additional guidelines and current changes
 - IMDS 005: Leather
 - IMDS 007: Steel Flat Products (strips and sheets), Metallic Coated (hot-dipped or electrolytically)
 - IMDS 008: Electroplated (electrolytically deposition) fasteners, now also containing content of IMDS 009 Components with electrolytically deposited coatings
 - IMDS 012: Automotive Sealer and Adhesive Products
 - IMDS 023: “Preliminary” MDS during the Prototype Phase

The accuracy of MDS created in IMDS is crucial for legal compliance. This training conveys detailed information about the latest changes in IMDS and puts you in the position to create accurate MDS.

Teaching methods

Presentation and demonstration

Participants

Users and staff responsible for IMDS quality management, engineering, material laboratory, environmental management

Requirement

Basic knowledge in handling IMDS

Length of seminar

1 day, from 9 a.m. to 5 p.m.

Max. number of participants: 14

Certificate

As a participant of our authorized IMDS trainings you receive a personal certificate in order to prove your qualification.

Training documents

You receive a personal copy of the presentation documents.

Public trainings

Current prices and dates can be found on our website:

www.imds-professional.com

Exclusive trainings
