

## 6194 Current REACH requirements

### Objective

You know the background and the current requirements of REACH. You understand the difference between substances of very high concern (SVHC), restricted applications and authorization requirements under REACH and you know the current status of brominated flame retardants. Furthermore, you are able to calculate the tin content in a basic substance (for example, for DBTO) using the molecular weight. You can use the IMDS to identify REACH-relevant basic substances and can check received and own material datasheets.

### Content

- Background and Recap
  - Background and legal framework of REACH regulation
  - Self-assessment of your own company: roles
  - Substances, preparations and products
  - 2018 Sunset Dates for registration of pre-registered phase-in substances
  - Overview list of candidates list (SVHC), Annex XIV and Annex XVII
  - Definition „Sunset Date“ in Annex XIV
- Current REACH requirements
  - New SVHC on the candidate list
  - Current status of brominated flame retardants in Annex XVII: DecaBDE, HBCD, Chromium trioxide
- Discussion
  - O5A - „Once an article always an article“, Art 33 und 7.2, REACH
  - Handling DBT and DOT
  - Calculation of tin content in a basic substance (e.g. in DBTO) using molecular weight
- How to use IMDS for REACH purposes
  - Deriving the material composition from a MDS in IMDS
  - SVHC in IMDS
  - Checking own and received MDS for SVHC

### Webinar method

Presentation and demonstration, Q&A

### Participants

Staff from the areas: packaging and material engineering; purchase; IMDS and CDX in general; of environmental management, quality assurance or occupational safety; legal departments; product distribution

### Requirements

Basic REACH knowledge  
Basic knowledge in the area of material databases such as IMDS or CDX is helpful but not required

### Training duration

120 minutes

Maximum number of participants: 10

### Public Webinars

Current fees and dates can be found on our website [www.imds-professional.com](http://www.imds-professional.com).

### Exclusive Webinar

You can also book this training exclusively. Your advantage: You set the time and the content may be customized according to your personal needs and requirements.
