

6151 REACH for manufacturers and importers in the automotive industry

Goal

The participants know the background and aims of the REACH directive. They understand the REACH process and know the parties involved.

The participants know the importance of socio-economic analysis and are familiar with the process of SVHC substances identification as well as the resulting requirements for communication.

The participants know how to use the new REACH safety data sheet and how to realize communication according to REACH.

The participants know the new hazard pictograms according to GHS - CLP and the different approaches for implementing them in the company.
