

6192 Understanding GADSL (Webinar)

Goal

You will learn about the background and the international goals of the GADSL, and you will be familiar with the regional structure of GASG, the responsible institution and its members. You will learn about the structure of the Excel-based GADSL list and its criteria for including new declarable basic substances. This will enable you to find GADSL-relevant basic substances in the IMDS database and to identify critical basic substances early enough. After completion of this training, you are familiar with all GADSL aspects necessary to declare data in compliance with law.

Content

- What is the background of GADSL and which international goals does it pursue? Why has it been established?
- How is the GASG organised and what is its main task?
- Which criteria exist for including new declarable basic substances?
- What do the various reason codes signify?
- How is the GADSL list structured and how has it been integrated in the IMDS?
- How do I use the list to declare data in compliance with law?

Training method

Presentation and demonstration
