

HYBRID IMDS & PRODUCT CHEMICAL COMPLIANCE CONFERENCE

**“Transitioning IMDS from
Materials Compliance to
the Circular Economy”**

AIAG
ADVANCING MOBILITY

Event Overview

Join us in person (or virtually) for this year's Hybrid IMDS & Product Chemical Compliance Conference as we explore, “Transitioning IMDS from Materials Compliance to the Circular Economy!”

Extended to two full days this year – to include sustainability issues such as carbon emissions reporting – presentations at our 2023 event will focus on IMDS updates (v14.0, v14.1 and upcoming v15.0), Product Carbon Footprint reporting, LCAs, TSCA, Recyclate, PFAS, and updates to the battery legislation and digital products passport.

We'll also hear from various suppliers and those in the heavy equipment industry, and the IMDS Steering Committee will provide updates on ELV and REACH, along with details on the new IMDS data structure requirements.

Ready to find out more? Secure your in-person or virtual spot today! While all attendees will get the latest updates on these critical industry issues, in-person attendees will also benefit from:

- Optional “101-level” tips (30 minute sessions) both days
- Networking opportunities to connect with industry leaders and peers
- Exploring the latest innovations from our sponsors and exhibitors
- And most importantly, our always popular Networking Reception!

Event Details

Date: October 17 - 18, 2023

Location: Suburban Collection Showplace
46100 Grand River Ave
Novi, MI 48374

Register Today

Not able to attend in person? Not a problem! Simply register to join us virtually, and access live presentations during the event, along with recordings afterward.
