

Hybrid IMDS, Product Compliance & Sustainability Conference

October 15 - 16, 2024

There's only one event in North America to get information on the latest IMDS system updates, Product Carbon Footprint, EU battery passport, PFAS, and more, all in one place — the 21st annual AIAG IMDS, Product Compliance & Sustainability Conference.

This must-attend conference provides:

- Information on the latest updates to IMDS Release 14.4, along with what's coming in Release 15.0
- An introduction to Product Carbon Footprint (PCF) and insight on how it will be added to IMDS
- New state legislation and reporting requirements for PFAS
- Updates on Life Cycle Assessment
- Mandatory Chemistry Manager Reporting
- Unparalleled networking opportunities
- So much more!

In person and hybrid registration opportunities are available, and those attending in person will also have the opportunity to participate in one of three training sessions (2-3 hours each, for an additional fee): PCF training, IMDS tips and tricks (for both basic and advanced users), and EU battery passport/Corporate Sustainability Reporting Directive (CSRD) & Carbon Border Adjustment Mechanism (CBAM) requirements.

EVENT DETAILS
