

AIAG IMDS, PRODUCT COMPLIANCE & SUSTAINABILITY CONFERENCE

There's only one event in North America that brings together the latest insights on **IMDS system updates, PFAS reporting, Product Carbon Footprint, and sustainability regulations** — all in one place.

Join us for the **22nd annual AIAG Hybrid IMDS, Product Compliance & Sustainability Conference**, October 8-10, 2025. Designed to help organizations proactively navigate evolving regulatory requirements and emerging trends, this event offers both in-person and virtual registration options.

Key conference benefits include:

- **In-depth coverage of IMDS Release 15** — explore new features like Product Carbon Footprint (PCF), Dynamic SVHC updates, and enhancements beyond release 15.0
- **Expert-led sessions on PFAS reporting, global legislative changes, and compliance with EU REACH/ELV, CBAM, and CSRD**
- **Practical insights into PCF methodologies, Life Cycle Assessment (LCA), digital passport integration, and regulatory updates (e.g., EU Battery Passport, Circular Economy mandates)**
- **Interactive access to regulatory, IMDS, and industry experts** — network and learn from OEM representatives, technical specialists, steering committee members, and sustainability thought leaders
- **Focused, in-depth sessions** on key topics, including Catena-X's role in standardized, secure data exchange across the automotive value chain and the Sustainability Data Approval Process (SDAP) for auditable sustainability reporting

Plus, benefit from in-person training covering fundamental "IMDS Tips and Tricks" on Day 1 (optional), and be sure to attend the must-see **"PCF Deep Dive" on Day 3**, which offers essential discussions and guidance to deepen your knowledge.

Whether you're just getting started with IMDS or looking to deepen your expertise, this event delivers the **practical updates, education, and insights you need** to confidently manage shifting priorities and expectations in today's global supply chain.
